Setting up alerts and reminders from your unit site

There are lots of tips on this page to help you stay on top of dues dates and other important unit information. We highly recommend you review and implement steps 1-3. Steps 4 and 5 are optional but very useful, and will help you get the most out of your unit and keep you organised! 😊

Open All

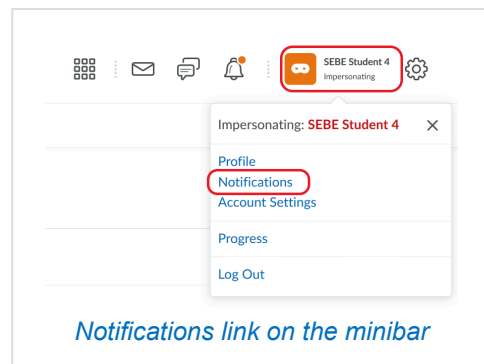

Step 1: Optimise your student email

All email communication from your Unit Chair and notifications from your unit site are automatically sent to **your Deakin email address**. Remember to **check it regularly** via [DeakinSync](#). 📧 You can also add your Deakin email to your phone or device, or [forward your student email](#). 📧 to another email address.

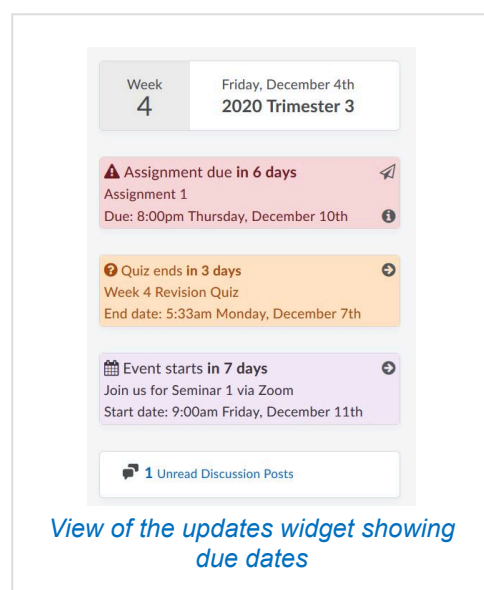

- [Deakin Email/Calendar Setup Instructions \(Android\)](#). 📧
- [Deakin Email – Adding your Account \(iOS Mail\)](#). 📧

Step 2: Set up your CloudDeakin personal notifications

You can control how you receive notifications from your unit sites. Options include instant or summary emails, and/or notifications in the minibar (shown in the image). You can choose things such as assessment due date reminders or grade release, as well as notifications for new announcements, discussions and content.

Step 3: Check the Updates widget

When you visit your unit site, the **Updates Widget** on the homepage will display assignment or quiz due dates and any events marked as important that are coming up in the next seven (7) days.

It will also show any unread discussion posts since your last visit.

Step 4: Subscribe to unit discussions (optional)

The discussions area of your unit site is a space to share your thoughts and ask questions of your peers and teaching team. You can **subscribe** to **forums**, **topics** or **threads** that interest you. Depending your notifications settings (see above), you can receive a subscription alert in the minibar, an instant notification or summary email.

You can **subscribe to and flag** your own and others' threads. Flagging makes it easier to find your favourite posts within a topic. You can search for flagged posts by selecting **'Flagged Only'** in the **View** box, then **'Apply'**.

1. Click the arrow then

2. **Subscribe**

3. **OR** Click

4. **Flag Thread**

Calendar events show on your unit homepage and within the **'Site Schedule'**.

So that you don't miss important events, add you unit calendars to your preferred personal calendar or scheduling software (e.g. Outlook, Google or your device).

Go to the unit site calendar by clicking on the down arrow next to **Calendar** on the homepage, then follow the numbered steps below as shown in the image.

1. Click on **Settings**
2. Check '**Enable calendar feeds**' and **save**
3. Click on **Subscribe**
4. Select the calendar you wish to subscribe to and **copy the calendar link**
5. **Add this link** to your preferred calendar or scheduling software. This varies depending on the application. For example:
 - **Outlook** (Open the calendar, click '**Add Calendar**' then select '**Add From Internet**' or '**Subscribe from web**' depending on your version)
 - **Google** (Open the calendar, next to '**Other calendars**', click on '**Add Other Calendar**'
6. Repeat steps 4 & 5 to add individual calendars
